DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 1-4, 11-17 and 20-23 are rejected under 35 U.S.C. 102(a) as being anticipated by Welborn et al..

Welborn et al. discloses a memory device having all the elements as recited in claims 1-4, 11-17 and 20-23 as follows:

- a first memory device (DATA A2, Fig. 4);
- a second memory device (DATA A1, Fig. 4); and
- a buffer coupled to the first and second memory devices (column 3, lines 51-61).

The bus coupled to the buffer is inherent in a memory device to transmit data.

Allowable Subject Matter

3. Claims 5-10, 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

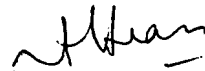

Claims 5-10, 19 and 20 recite a second buffer coupled to the third and fourth memory device and a first buffer. This feature is not found in the prior art.

The advantage of the invention is to reduce the capacitance load to increase operating speed and reduce power consumption.
